

# YOUR CLOUD UPDATE

October 2019

**WELCOME TO THE FIRST EDITION OF OUR CLOUD ACCOUNTING UPDATE.**

Every quarter we will be bringing you up to speed with the latest developments from the cloud accounting software providers that we work with, to ensure you are getting the most out of your cloud accounting subscription.

**UK REGULATOR DELAYS STRONG CUSTOMER AUTHENTICATION (SCA) RULES.**

For years, the UK and EU have shared the objective of creating a level playing field for new market entrants in the financial services and payments industries while ensuring the proper protection of consumers' data.

To achieve this, the EU introduced a regulation in 2010 called the European Directive on payment services (PSD) to regulate payment services and payment service providers throughout the EU and EEA.

UPDATE

**Mileage tracking** - track every trip and keep more money in your pocket. Turn on mileage tracking in the app and sort business from personal travel.

**Receipt capture** - take the manual work out of uploading receipts. Snap a receipt directly from the app and Quickbooks smart technology will match and sort it as an expense

[more updates](#)

UPDATE

**VAT return** - there are new tax rates to support domestic reverse charge in Xero

**Quotes** - You can now create a repeating invoice from a quote

**CIS** - construction industry scheme invoices and bills can now be imported or edited in an organisation through Xero API
